Project Type: State-wide Emergency BHS Catchment Maintenance, Repair, Site Visits and Water Hauling via Helicopter

Brief Project Summary:

This proposal is being submitted for the maintenance of various water developments for bighorn sheep throughout the state, other than Region IV, who submit their own proposal for the same type of work. Maintenance includes, among other things, emergency water hauling via helicopter. This is an important project in that it allows for the timely use of bighorn sheep special tag funds where they are needed for small projects or emergency maintenance. This proposal addresses minor repairs to bighorn sheep waters, as well as helicopter time for site visits with ADBSS representatives for future projects where necessary.

NEED STATEMENT – PROBLEM ANALYSIS:

Each year, maintenance needs arise concerning water catchments used by bighorn sheep. In some cases, immediate response will be required by Development Branch personnel to remedy these needs. Minor repairs are also sometimes identified, not necessarily constituting an emergency, but requiring prompt attention to prevent future bighorn sheep catchment failures. These repairs are often not significant in terms of materials or labor, but become expensive due to the need of helicopter use.

Similarly, joint site visits with ADBSS representatives, Development Branch personnel and land management agency personnel are needed for the repair or redevelopment of bighorn sheep waters; this is also a valid use for this fund. This activity allows for better preparation for a more comprehensive tag fund grant application for the redevelopment of these facilities.

PROJECT OBJECTIVES:

A). to buffer the current AGFD cost of maintaining inaccessible bighorn sheep waters by using bighorn sheep special tag funds.

B). to increase the efficiency of using these funds by having jointly-approved funding available for immediate expenditure on a as-needed basis

PROJECT DESCRIPTION AND STRATEGIES:

A). Encumber the requested funding for emergencies requiring the use of a helicopter.

B). Identify minor repairs to bighorn sheep water developments that can occur simultaneously to other projects occurring in the area.

PROJECT LOCATION:

State-wide bighorn sheep water development locations other than Region IV

LAND OWNERSHIP AT THE PROJECT SITE(S):

(if the project area is private property, please state specifically and provide the landowner's name)

•

IF PRIVATE PROPERTY, IS THERE A COOPERATIVE BIG GAME STEWARDSHIP or LANDOWNER AGREEMENT BETWEEN THE LANDOWNER AND THE DEPARTMENT?

YES[] NO[] N/A[X]

HABITAT DESCRIPTION:

Not applicable

ITEMIZED USE OF FUNDS:
